

The Wind Rider Project^(tm)

Helping Veterans and Active Duty Service People Heal Their Invisible Wounds of Post Traumatic Stress

The Human-Horse Experiential Interaction

- Interactive therapeutic ground work
- Clients establish a foundation to build trust with their equine partner
- A non-threatening environment to discover and try new behaviors
- Coaches create in-the-moment integrative experiences
- Clients experience immediate feedback with short and long-term benefits
- Camaraderie with other veterans and active duty service people
